

DecisionCAMP

Lifetime Achievement Award

SPONSORS

Lifetime Achievement Award

- * This year for the first time one of the major contributors to Business Rules and Decision Management movement will be presented with the Lifetime Achievement Award
- * DecisionCAMP-2018 Organization Committee had no difficulties to select the award winner
- * The First Lifetime Achievement Award of 2018 goes to...

Dr. Charles Forgy

- * The father of Rule Engines
- * Charles is commonly known as an inventor of RETE algorithm that is in the heart of major rule engines and BRMS for 4 decades

About Dr. Charles Forgy

* Dr. Charles Forgy has been involved with rule engines for decades. In the mid 1970's he developed the RETE algorithm while a PhD candidate at Carnegie-Mellon University. After graduating in 1979, he remained at Carnegie-Mellon on the research faculty, where he was co-principal investigator of a DARPA-funded project to develop special hardware for rule engines

* Today Dr. Forgy is the CTO of Production Systems Technologies (PST) and a Strategic Advisor to Sparkling Logic

* At PST Charles developed even more efficient Rete-II and Rete-NT as well as a parallel rule engine for handling high volume and high velocity data

* Charles and his wife Diana live in Pittsburgh, PA. They have three children and two grandchildren

* Dr. Forgy was a presenter on many Decision CAMP events between 2008 and 2016. We expect him to present again at our next events
